

1. Pages:

- Home
- About Us
- Projects
- Contact Us
- Client Sell (In Future)
- Resignation (In future)

2. About Each Page

1. Home:

- Similar to <https://sanjaypuriarchitects.com/>

- No fancy animation

2. About Us:

- Most of the info would be shared by them
- It should have info about the two founders.
- About the start up.
- History of the startUp.
- No fancy animation in this too
- Reference: <https://sanjaypuriarchitects.com/about-us/>

SANJAY PURI
Principal Architect

NINA PURI
Principal Architect

Sanjay strongly believes that every project should be designed contextually evolving spaces that are perceived in new ways. Each design takes cognizes of the climate and integrates to work there for 4 years more as a sustainability in cohesive way. This ideology is reflected in the extensive work done by the firm in the 3 decades since its inception.

Sanjay Puri graduated from the Academy of Architecture, Mumbai in 1988.

He worked with Architect Hafeez Nana Puri Architects – is leading design firm, that specializes in residential and commercial interiors and has established its presence throughout the country. Known for simplicity in her design approach, Architect Nina Puri juxtaposes the orthogonal nature of clean lines with a luxurious mix of materials colors and texture in order to create a distinct look for each project. She strongly believes that no space is too small to be designed as creativity has no size, nor limits.

She had her team employ

WADE (Women Architect Designer) Role Model outstanding contributions designing spaces. Nina team continue to exceptional interior throughout the country repertoire of project private homes and offices with a wide palette of colors and texture contemporary language portfolio of discerning projects ensures a strong sense of individuality to each one

3. Projects:

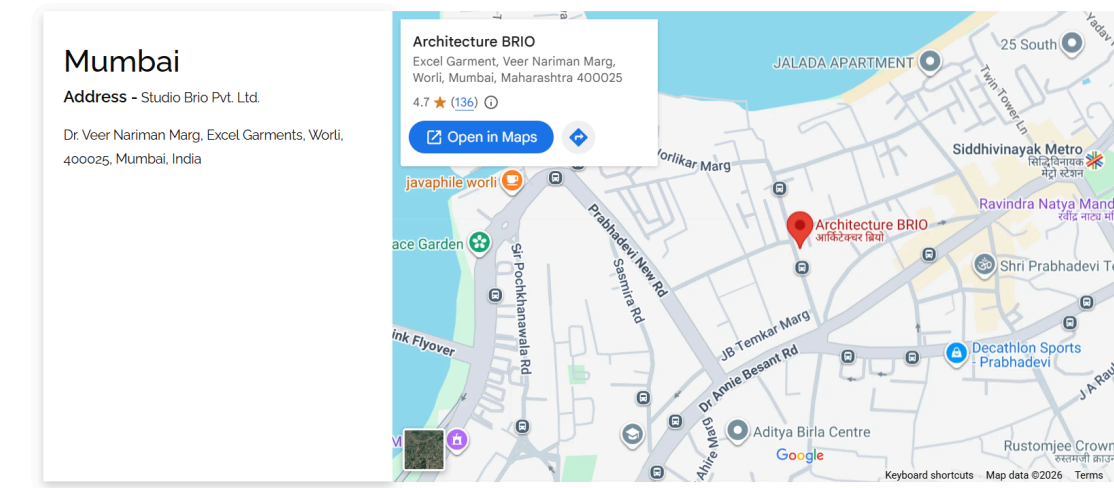

- Projects should have functionality where when clicked on Any individual project the project page should have only show that Project details and hide other projects
- When projects are hovered they should have either of these two Animation:
 1. Fade In and Out (reference: <https://www.architecturebriio.com/projects/>)
 2. Pop in and out (reference: <https://shivam-bhosale.vercel.app/#projects>)
- The Projects should have filter option to filter project categories either of these two:
 1. Filter button (reference: <https://www.herzogdemeuron.com/projects/>)
 2. Individual category button (reference: <https://shivam-bhosale.vercel.app/#projects>)
- Filter options are Reference(<https://www.architecturebriio.com/projects/>):
 - Topology
 - Location

Note: Don't add any more categories until client say so

- Reference: <https://www.architecturebriio.com/projects/>
